

The City of Davenport would like to help keep Davenport's citizens safe this winter.

Make a winterization appointment or follow these tips:

- Check your tires :
 - ◆ How is your tire tread? A simple check is to place a penny in between treads. If you can see the top of Lincoln's head your tire has 4/32nd of an inch or less remaining and the tire is hazardous
 - ◆ Make sure tires are properly inflated. As the temperature falls, tire air pressure can drop as much as 1 psi for every 10 degrees the temperature falls

- Make sure your heat and defrost work
- Check your windshield wiper blades - most blade manufacturers recommend replacement at least every 12 months
- Check your fluids:
 - ◆ Windshield washer
 - ◆ Use washer fluid with a lower freezing point of -25 when possible
 - ◆ Oil
 - ◆ Antifreeze
 - ◆ Brake fluid
- Consider washing and waxing to prevent salt corrosion
- Have the battery tested - many automotive stores will do this for you

Keep your gas tank over half full.

Must haves

- ⊗ Jumper cables (or a jump starter kit)
- ⊗ Spare tire
- ⊗ Lock deicer
- ⊗ Flashlight
- ⊗ Cell phone charger
- ⊗ Mittens, hats, boots
